

About AVS ...

Audio Video Systems, Inc. (AVS), a privately owned certified small business headquartered in Chantilly, Virginia, is dedicated to serving the Department of Defense; Federal, State and Local governments; higher education and commercial enterprise worldwide.

Established in 1992, AVS has grown to occupy more than 20,000 square feet of office, engineering and integration space, and employs more than 80 full-time project managers, engineers, certified programmers, integration technicians and support personnel.

AVS is a "Gold" level status provider under the audiovisual (AV) industry's prestigious Certified AV Solutions Provider (CAVSP) Program. The Gold designation certifies that 75 percent of AVS' employees have completed an InfoComm International Certified Technology Specialist (CTS) credential program. The award further demonstrates AVS' commitment to continuing education and training for staff at all levels.

Additionally, AVS was ranked in the top 10 by the *Washington Business Journal's* 2007 and 2008 "Book of Lists for Small Technology Companies" for the Washington, D.C. region. AVS was also named to the *Inc. 5000* list and ranked in the top 100 for government defense contractors.

If you are interested in applying for a position, please send your resume to jobs@avsinc.net or contact AVS' Human Resources Department.

Do you want to stand out from the rest of the crowd? ...

.. Join the AVS Team

Homeland security uses it. MTV and NBC use it. Schools and churches use it. What is "it"? ... Audiovisual Technology.

Jobs in the audiovisual (AV) industry are some of the highest in demand. It is a growing multi-billion dollar industry. And there is no end in sight as people look for better quality in their audiovisual systems.

STAND OUT from the rest by exploring a career with Audio Video Systems. You can gain a wealth of knowledge, and become a part of this exciting and innovative industry. Entry-level and professional opportunities are now available.

Working at Audio Video Systems

Audio Video Systems, Inc. (AVS) is a design, engineering and systems integration firm, which provides custom, high-end audiovisual systems, integration services and solutions, ongoing maintenance and on-site support. AVS' core competency and major focus lies in designing, installing and maintaining integrated audio, video and control facilities for a wide variety of environments including classrooms, command and control centers, conference rooms, classrooms and training facilities, SCI facilities, auditoriums, theaters and more.

AVS Expertise...

The AVS staff is trained on all equipment and certified on numerous audiovisual systems.

AVS provides complete facility design, implementation, support and maintenance. AVS provides its clients a complete audiovisual solution in all aspects including electrical, construction, lighting and furniture.

AVS distinguishes itself with its technical expertise, project management and on-site support backed by solid financial performance and long-term relationships with our suppliers and clients. AVS' service team is comprised of highly experienced personnel proficient in the servicing of secure VTC, control systems and complex audio/video systems. AVS also provides ongoing service and maintenance contracts for clients that include 24 hour/seven day on-site technical support.

AVS Benefits:

In addition to a competitive salary and common company benefits (including medical, dental, disability, life insurance, 401(k) retirement plan, profit sharing plan and paid vacations), each AVS employee reaps the benefits of working with a dedicated team of professionals in a friendly work environment. EOE/M/F/V/D

One day you may work as part of a building/architect team as you help specify the correct AV technology for a new building. The next day you may help install the sound system in a command center or at a sports arena. Or you may conduct on-site support at locations around the world.

You can help people do their job by doing yours. Doctors. CEOs. Military Leaders. Musicians. Teachers. Scientists. All use some sort of AV technology in their daily lives. And they can't afford not to use it. Whether it's a concert or a ballgame, at an airport, or in a boardroom, AV professionals have helped set the stage for everyone in those venues.

Immediate Openings for:

Senior Systems Engineers - Design, Mechanical and Programming
Systems Engineers
Integration Engineers
A/V Software Programmers

Apprenticeships and Internships are also available in both the Engineering and Integration Departments.

Those with active security clearances are encouraged to apply as AVS conducts a lot of work in the military and government sectors.
