

ReadyView™ Projection

ReadyView™ Projection, a basic front projection display system, is an ideal multi-function AV solution for a small conference room, training room or classroom.

The **ReadyView™ Projection** system comes with:

Front projection display system with speakers

Motorized projection screen (wall-mounted)

Wall plates - (choice of one or two) with connections for:

- Video source - VCR, standard definition TV tuner or DVD player
- PC source, with audio

Wall-mounted controls for screen and projector control, source selection and volume

All required cables included

Full documentation of system, including manufacturer's manuals for each component and an AVS "User Quick Guide" manual

Training on how to use the system

Make your ReadyView™ Projection system interactive ...

A wall-mounted SMART Board™ interactive whiteboard can be added to your system, giving you control of computer applications from the display and allowing you to write notes in digital ink that you can save for future use.

The touch-sensitive display connects to your computer and projector to show images and programs from your computer.

AVS's ReadyView™ Systems provide you with an easy-to-maintain, standardized and pre-engineered system at a fixed price.

Audio Video Systems, Inc. (AVS) is a design, engineering and systems integration firm, which provides custom, high-end audiovisual systems, integration services and solutions, ongoing maintenance and on-site support. Specializing in government installations, AVS' core competency and major focus lies in designing, installing and maintaining integrated audio, video and control facilities for a wide variety of environments including classrooms, command centers, conference rooms, training facilities, auditoriums and more.

AVS distinguishes itself with its technical expertise, project management and onsite support. AVS' service team is comprised of highly experienced personnel proficient in the servicing of secure VTC, control systems and complex audio/video systems. AVS also provides ongoing service and maintenance contracts that include 24 hour/seven day on-site technical support.

AVS is a "Gold" level Certified AV Solutions Provider, which certifies that 75 percent of AVS' employees have completed a Certified Technology Specialist (CTS) credential program administered by InfoComm International. The award further demonstrates AVS' commitment to continuing education and training for staff at all levels.
